## BIOGRAPHY

23 year old Graphic Communication graduate from the University of Nicosia.

I have majored in Graphic Communication but I also have minor degrees in Applied Multimedia and Fine Arts. I love photography and books.

I prefer spending my time creatively, mostly by drawing, painting or reading. Moreover I love travelling or exploring my own country.

## ACHIEVEMENTS AND SKILLS

- Through my past experiences I have improved my leadership and teamwork skills. I have worked in groups of 20 as a crew member at "Murphy's Club" and in groups at 5 at "The Winery Wine Bar" or even in groups at 2 for University Projects. I never failed to be part of the team and I am always willing to help or lead my team to success. Being a Club Supervisor helped me improve my communication skills, leadership spirit and customer service awareness. Helped me become responsible and easy to work with. Moreover I was elected as the president of the Art, Design and Multimedia Society of the University of Nicosia two years in a row, which also helped me become even more responsible as a person and through this I also learned to manage projects better and to manage my time with more responsibility as a leader of a team.
